

## APARTMENT SEARCH

With the following overview we would like to make it easier for you to find an apartment in Bonn. Here you will find the most common online platforms in Germany and some local providers of furnished apartments. It may take a lot of patience to find a suitable apartment.

If your search for an apartment is not successful, please contact the Welcome Center for International Researchers. You may want to consider staying at our International Guesthouse or we might have another suitable housing offer for you.

If you have doubts about the seriousness of an apartment offer, please also contact the Welcome Center for International Researchers. This applies in particular to cases in which an advance payment is requested when booking. Unfortunately, there have been cases of fraud in the past with alleged housing offers via the "airbnb" portal. We recommend special caution when using this portal.
