

# SAVE THE DATE

## “The Role of Nutrition in Planetary Health”

Inaugural Symposium  
Hertz-Chair Innovation  
for Planetary Health

### The Topic

Food systems play an important role in achieving healthy environments, human health, and the health of all living creatures on our planet. This scientific symposium will launch the research concept of the Hertz-Chair “Innovation for Planetary Health” and will provide a platform for interdisciplinary discourse to strive technology and innovation for sustainable futures at the University of Bonn and beyond.

#### Venue & Date

Uniclub, Wolfgang-Paul-Saal,  
Konviktstraße 9,  
53113 Bonn

**19 March 2024**

#### Organizer

Transdisciplinary Research Area  
„Innovation and Technology for  
Sustainable Futures”  
Hertz-Chair Prof. Dr. Ina Danquah

Besides the **Inaugural Lecture of Prof. Dr. Ina Danquah** we are looking forward to exciting presentations by:

**Prof. Dr. Hermann Lotze-Campen**,  
Potsdam Institute for Climate Impact  
Research (PIK), Potsdam

**Prof. Dr. Ute Nöthlings**, Nutritional  
Epidemiology, University of Bonn
