We recommend that you verify the recognition of coursework and examinations even if you plan on transferring to the same academic discipline at another university — academic disciplines may cover different content despite having the same designation.  In most degree programs, you must inform the examination authority about failed examinations and failed final attempts at examinations in the academic discipline at hand or an academic discipline with substantial similarities in content upon enrollment and/or registration for the bachelor's/master's examination or a module

	Applying for a higher program-related semester (certificate of recognition must be presented): <a href="mailto:uni-bonn.de/en/studying/application-admission-and-enrollment/special-application-matters/applicants-for-a-higher-pogram-related-semester">higher-pogram-related-semester</a> In academic disciplines with restricted admission to higher program-related semesters, you can only be admitted if places are available after the re-registration deadline.		
rollment			
	If you have successfully applied for an academic discipline with restricted admission, you can enroll for this		
_	discipline during the period indicated in your letter of admission.		
	The University of Bonn does not request applications for academic disciplines without admission restrictions. Enrollment deadlines: uni-bonn.de/en/studying/application-admission-and-enrollment/application-deadlines

otes	on BAföG		
	Transferring to another academic discipline or university may impact the amount and term of your BAföG grant A one-time transfer to another academic discipline within the first three program-related semesters is usually		
	possible without losing entitlement to your grant. Please be sure to contact the BAföG Office in good time to		
	discuss your individual situation: <a href="mailto:studierendenwerk-bonn.de/en/financing/">studierendenwerk-bonn.de/en/financing/</a>		
	Transferring to an academic discipline in the third program-related semester requires a written statement		
	providing important reasons for the transfer.		
	When transferring in the fourth or a higher program-related semester, you will usually only continue to be entitled to your grant if you transfer on imperative grounds (i.e. an occurring disability/illness due to which you are unable to continue your studies and/or take up your aspired career).		
	In case of additional transfers for important reasons, your studies may no longer be eligible for full financial		
	support in the form of a financial allowance ("Zuschuss") or interest-free government grant ("zinsloses		
	Staatsdarlehen"). In any case, you will need to submit a written statement providing an important reason for additional transfers.		
	Changing program options (e.g. from the Dual-Subject to the Major and Minor option in a bachelor's degree		
	program) may be considered a transfer as well.		
	The legal basis is established in the Federal Training Assistance Act (Bundesausbildungsförderungsgesetz), § 7
