

The [Hertz Chair for Artificial Intelligence and Neuroscience at Bonn University](#) is looking for a student research assistant for programming research software in Matlab.

Prof. Dr. Dr. Dominik Bach
Hertz Professorship for Artificial
Intelligence and Neuroscience

Am Probsthof 49
53121 Bonn
Tel. 0228/73-69530

Student Research Assistant for Matlab Programming (8-15 h/week)

Tasks include:

- consolidating and expanding an existing codebase in Matlab (<https://github.com/bachlab/PsPM>)
- conceptual code design
- unit testing
- user documentation

Requirements:

- Applicants should be enrolled in computer science, or an engineering or science degree
- Fluent command of Matlab, and experience in collaborative code development (git) are mandatory.
- Good command of English language, German is not required.

The position is available for 1 year in the first instance, with a possibility for extension.

Please submit your cover letter, CV, transcript of records and any other documents into ONE PDF and send them to caian.office@uni-bonn.de.

Shortlisting of candidates will start on **1 May 2024**.
