The Faculty of Arts of the University of Bonn is seeking to fill the position of a

**W 2-Professorship in Biomolecular Archaeology**

at the Department of Archaeology and Cultural Anthropology and at the Bonn Center for ArchaeoSciences (BoCAS) at the earliest opportunity for a period of five years.

We seek a colleague with a strong record of research excellence who – coming from archaeological science, natural science, biology, medicine, or related fields – will shape the field of biomolecular archaeology. The geographic area of research is open. Candidates who study health and disease as well as environmental impact on past human populations and whose research and teaching complements that of existing department members are especially encouraged to apply.

In addition to establishing this academic area at the University of Bonn in teaching and research, the successful candidate will be expected to play a significant role in the development of the Bonn Center for ArchaeoSciences (BoCAS). A core goal of BoCAS is to develop innovative and integrated approaches to research at the intersection of archaeology and sciences.

Requirements are expertise and a record of publication in one or more of the following methodologies applied to archaeological materials: multi-omics including metabolites, proteins and lipids, enzyme-linked immunosorbent assay (ELISA), liquid chromatography, mass spectrometry, physical anthropology, paleopathology, zooarchaeology and excellence in fieldwork and/or experience in laboratory research.

Experience in collaboration and academic or institutional development, excellent communication skills and a commitment to teamwork, in particular involvement in the development of BoCAS and cooperation with colleagues from other faculties, organizations and museums are expected. Other essential criteria are teaching experience and supervision of undergraduate and graduate students as well as the willingness to develop new courses of study at BA and MA level. Success in third-party funding, and commitment to establish collaborative research projects are also desired.

Please contact Prof. Dr. Jan Bemmann with any questions: jan.bemmann@uni-bonn.de

A relevant outstanding PhD and habilitation or habilitation-equivalent publications are prerequisites for application.

Prerequisites for employment are in accordance to Section 36 Higher Education Act NRW.

The University of Bonn is committed to diversity and equal opportunity. It is certified as a family-friendly university and has a dual career service. It aims to increase the proportion of women in areas where women are underrepresented and to promote their careers in particular. University of Bonn therefore strongly encourages women with relevant qualifications to apply. Applications will be dealt with in accordance with the Landesgleichstellungsgesetz (State Equality Act). Applications from suitable individuals with a certified serious disability and those of equal status are particularly welcome.

Please apply via our online portal: https://berufungsportal.uni-bonn.de. The deadline for applications is November 11, 2022.
