

To all
employees
of the University of Bonn
- excluding University Hospital Bonn (UKB) -

Circular No. 70/2020
Parking administration

Dear Sir or Madam,

Bonn, September 10, 2020

Due to the coronavirus pandemic, parking administration had been put on hold in recent months. This meant free parking for all users. With hardly any checks being carried out by parking attendants, regular users of some parking spaces are currently facing severe challenges due to overuse.

To ensure and return to regular parking administration on all properties of the University of Bonn, as of October 01, 2020, the operating agreement and the general terms of use become effective again. As of next month, we therefore ask all users to ensure that their vehicles parked on university property in the municipal area of Bonn display a valid parking permit. The checking of parking space and permits will resume in October.

As the university underground parking lot was reopened on April 01, 2020, a limited number of daily parking permits is now available for this area too. Similar to other daily parking permits, these can be purchased weekdays at the container located in Arkadenhof. Payment is cash only. Please note that that private parking in Arkadenhof is generally prohibited.

All information on parking fees is available on the homepage of Section 4.1.

Thank you for understanding. I remain available for any questions you may have on this matter.

Sincerely,
Per pro.,

Signed Boltersdorf
