

Make your contribution!

The university-wide employee survey is underway!
Let us work together to create a framework conducive to a healthy working,
studying, teaching and research environment at the University of Bonn.

Dear employees of the University of Bonn,

The university-wide employee survey
“Focusing on Us: Team – Work – Wellbeing”

” has started. This is an important building block
of the University health management strategy.

What does the University health management strategy do for you?

The modern world of work is subject to rapid change,
requiring a high level of adaptability from its members.
This includes an increase in the amount of information
which we are required to process and growing time
and working pressures. In view of the pressures
coming to bear, it is ever-more important that we find
a good balance between the demands of work and
our own health and wellbeing.

We would like to work with you to:

- Reinforce your personal health skills
- Continue to make the University of Bonn a more healthy workplace

The University health
management team

Healthy working practices at the University of Bonn. Working together in three phases:

PHASE 1

Analysis

How do you experience
your workplace?
We want to know.

PHASE 2

Measures

What do you need most?
We work together with you
to develop joint measures.

PHASE 3

Evaluation

Has anything changed?
We check the effectiveness
of the measures.

Make your contribution!
