Dear Sir or Madam,

As part of the gradual introduction of “safe operations”, the reopening of the University buildings is scheduled for June 02, 2020, subject to the following:

The general opening hours are from 8:00 am to 4:00 pm until further notice. For centrally administered buildings, building management (Section 4.1) is responsible for the opening and closing. For buildings which are administered decentrally, managing directors or, respectively, persons responsible may instruct to reduce opening hours or to uphold the current closure.

Access to the University premises outside of the applicable opening hours is only possible upon prior agreement. Visitors must be met at and accompanied back to the entrance. Visitors must be accompanied while in the building, to the extent local circumstances permit.

Hygiene and protective measures must be adhered to on University premises, especially wearing mouth and nose covers is imperative. To ensure the above, ASPO employees and janitors will conduct additional walk-throughs in buildings.

Section 4.1 has already started implementing hygiene and protective measures in common areas (e.g. foyer/waiting areas, sanitary facilities, elevators). This comprises in particular the positioning of mobile tables reserved for disinfectant, placing of posters and floor marks, partial closing of sanitary facilities, etc.

Due to the high number of buildings, this will be implemented step-by-step and according to the level of priority (e.g. examinations requiring physical attendance which many persons take part in).

Sincerely,

Holger Gottschalk
Provost

Circular No. 38/2020
Reopening of University buildings
during “safe operations" mode

University of Bonn - Provost - 53012 Bonn, Germany
