The Rheinische Friedrich-Wilhelms-Universität Bonn is an international research university that offers a wide range of degree programs. With 200 years’ worth of history, some 38,000 students, over 6,000 employees, and an excellent domestic and international reputation, Bonn University is among Germany’s leading universities.

The Bonn Center for Dependency and Slavery Studies invites applications for two

PhD Positions (Research Associates, 65%)

Starting date: October 1, 2020. Contracts will have a fixed duration of three years (ending September 30, 2023), with an option of extending for an additional year after a positive interim evaluation (3+1 years).

The successful candidates will work in the Research Group “The Archaeology of Dependency (ArchDepth): Resources, Power, and Status Differentiation.” This Research Group is an integral part of the Bonn Center for Dependency and Slavery Studies, established in 2017 within the Faculty of Philosophy. The BCDSS was awarded the status of “Cluster of Excellence: Beyond Slavery and Freedom. Asymmetric Dependencies in pre-modern Societies” by the German Research Council. The Bonn Center for Dependency and Slavery Studies offers excellent opportunities for interdisciplinary and comparative study of different forms of dependencies from Antiquity to the present, across many regions.

Job description
The successful candidates will formulate independent projects within the Research Group “The Archaeology of Dependency (ArchDepth): Resources, Power, and Status Differentiation.” Research on dependency and slavery based on the archaeological record opens up new fields of study and research questions. The general concept of the ArchDepth Research Group spins around the notion of resource dependencies embodied in a diverse set of archaeological material culture. Within a larger ecological and sociopolitical setting, resource dependencies include both strong asymmetrical forms of dependency between resources and humans and between humans. The PhD projects perform their in-depth research along one of three lines of archaeological evidence fundamental to the research group: (1) landscapes, architecture, and households, (2) artifacts and ecofacts, or (3) funerary contexts. Also single aspects or combinations from the lines of evidence can be chosen as a PhD topic, especially when tackling particular methodological or theoretical problems. As the analysis of a spectrum of archaeological materialities requires different methods including natural scientific techniques, the collaboration with specialists from different disciplines is expected. The research group follows a comparative approach. Therefore, the geographical and chronological emphasis of the individual doctoral projects is open, as long as they are related to material culture from archaeological contexts. The research group itself forms part of the wider research of the BCDSS and here of the Research Area B “Embodied Dependencies”.

The positions are funded for up to four years (3+1 years) on a salary of 65% of the TV-L-E13 salary level, approximately €30,000 pro-rata per annum before tax. The successful candidates will receive a salary and social security benefits. In addition, access to extra funding for fieldwork and conferences will be available, as well as institutional support for women and applicants with families. The successful candidates will participate in the BCDSS’s PhD program which offers both academic and non-academic training units. PhD candidates at the University of Bonn are advised to enroll as PhD students at the bi-annual fee of about €300. This fee covers free regional public transport within the state of North Rhine-Westphalia as well as student discounts at museums, cinemas, and other benefits.

Qualifications
Applicants are required to have a completed university degree (Master, Magister or Staatsexamen) in an archaeological discipline or a degree in a similar area of study relevant for the research group. We welcome applications from all over the world. English is the working language within the Research Group “The Archaeology of Dependency (ArchDepth): Resources, Power, and Status Differentiation” and within the BCDSS.
The English of the applicant must therefore be on an equivalent level of:

- ETS TOEFL certificate (minimum score of 600 for the paper-based test, 250 for the computer-based test, and 100 for the online test);
- Cambridge Certificate of Proficiency in English, CPE (any grade);
- Cambridge Certificate in Advanced English, CAE (grade A or B);
- IELTS test (level 7.0);
- C1 level according to CEFR native speakers or graduates from an English-speaking university are exempt from this verification.

However, we do not require a formal certificate.

How to apply
Applicants are invited to submit:
1. their **application**, consisting of a) **curriculum vitae** b) a **list of publications** (if applicable) c) copies of their **BA and MA certificates** or equivalents (including official transcripts)
2. an **outline of the research project** they would like to develop during the PhD (max. four pages), including key research questions and hypotheses; methodology and data; connections of the proposed project with, and relevance for, the topic of the research group.
3. a **sample of work** max. three pages, together with a short description of the context (i.e. part of BA or MA thesis, term paper, published article etc.) in its original language.
4. the **names and contact details of two referees** (position, professional address, and e-mail).

The University of Bonn is committed to diversity and equal opportunities. It is certified as a family-friendly university. It aims to increase the proportion of women in areas where women are underrepresented and to promote their careers in particular. It therefore urges women with relevant qualifications to apply. Applications will be handled in accordance with the Landesgleichstellungsgesetz (State Equality Act). Applications from suitable individuals with a certified serious disability or similar are particularly welcome.

If you are interested in this position, please send your **complete English application documents** combined into one single Pdf file by **March 15, 2020** to application@dependency.uni-bonn.de with the **application code 98/19/3.202**. For further information please have a look at our website or contact Sarah Dusend at researchandstudy@dependency.uni-bonn.de.
