The Medical Faculty of the Rheinische Friedrich-Wilhelms University of Bonn (Institute of Clinical Chemistry and Clinical Pharmacology, Director Prof. Gunther Hartmann) has a position available at the earliest possible starting date for a

**W2-University Professorship of Functional Immunogenomics as a part of the Cluster of Excellence ImmunoSensation² (Tenure Track System)**

The professorship is embedded within the German Research Foundation (DFG) Cluster of Excellence ImmunoSensation². This cluster represents an excellent scientific environment, with an internationally renowned focus on research in immunology.

Scientifically, the professorship is intended to strengthen the expertise within the Excellence Cluster through the application of modern functional genomics, including cutting-edge CRISPR/Cas-based screening methods, for the molecular analysis of immune pathways. Beyond the research conducted in the cluster, excellent opportunities exist for cooperation with the German Center for Neurodegenerative Diseases (DZNE), the Mildred-Scheel School of Oncology, and the West German Genome Center.

The position is open to scientists with an outstanding record of scientific achievements, competitive third-party funding, and qualification for teaching in subject-specific degree and graduate programs. The successful applicant is expected to integrate within the research focus areas of the Medical Faculty by participating in collaborative research networks.

A prerequisite for the position is the German degree Habilitation, or an equivalent scientific achievement, according to Article 36 of the Higher Education Act North Rhine-Westphalia. As this is a tenure track position, the Medical Faculty offers the opportunity for a permanent position, following successful evaluation.

The University of Bonn is committed to diversity and equal opportunities. It is recognized as a family-friendly university and offers a dual-career service. The aim of this program is to increase the proportion of women in areas, in which they are under-represented, and promote their careers. The University therefore encourages applications from qualified women. All applications will be handled in accordance with the National Equality Act. Applications from suitably qualified individuals with proven severe disabilities, or those granted an equivalent status, are particularly welcome.

Qualified applicants are requested to send German or English versions of their application documents (cover letter, CV, references, degree certificates, list of publications) and a completed application form until July 26, 2019 to Prof. Dr. med. Nicolas Wernert, Dean of the Medical Faculty, Rheinische Friedrich-Wilhelms University of Bonn, Venusberg-Campus 1, Building 33, 53127 Bonn.
