The Medical Faculty of the Rheinische Friedrich-Wilhelms University of Bonn (Institute of Experimental Oncology, Director Prof. Michael Hölzel) has a position available at the earliest possible starting date for a

**W2-University Professorship of Tumor-Immunobiology**

**as a part of the Cluster of Excellence ImmunoSensation²**

*(Tenure Track System)*

The professorship is embedded in the German Research Foundation (DFG) Cluster of Excellence ImmunoSensation². This cluster represents an excellent scientific environment, with an internationally renowned focus on research in immunology.

Scientifically, the professorship is intended to strengthen the expertise within the cluster in the area of immuno-oncology, as for example in the following areas: experimental cancer immunotherapies including immune checkpoint inhibition, activation of innate immunity and cell therapy, as well as the inflammatory tumor microenvironment. An explicit goal of this professorship is to translate findings from basic and preclinical research into clinical development. Beyond the cluster, excellent opportunities exist for cooperation with the Mildred-Scheel School of Oncology (MSSO) and the Center for integrated Oncology (CIO).

The position is open to scientists and physicians with an outstanding record of scientific achievements, competitive third-party funding, and qualification for teaching in subject-specific degree programs and graduate schools. The successful applicant is expected to integrate themselves into the research foci of the Medical Faculty by participating in collaborative research networks.

A prerequisite for the position is the Habilitation, or an equivalent scientific achievement according to Article 36 of the Higher Education Act North Rhine-Westphalia. As this is considered a tenure track position, the opportunity exists for the professorship to be made permanent, following a successful evaluation.

The University of Bonn is committed to diversity and equal opportunities. The University of Bonn is certified as a family-friendly university and offers a dual-career service. The aim of this program is to increase the proportion of women in areas in which women are under-represented and to promote the careers of women, in particular. The University therefore encourages applications from appropriately qualified women. All applications will be handled in accordance with the National Equality Act. Applications from suitably qualified persons with proven severe disabilities, or those granted an equivalent status, are particularly welcome.

Qualified applicants are requested to send German or English versions of their application documents (cover letter, CV, references, degree certificates, list of publications) and a completed application form until July 26, 2019 to **Prof. Dr. med. Nicolas Wernert, Dean of the Medical Faculty, Rheinische Friedrich-Wilhelms University of Bonn, Venusberg-Campus 1, Building 33, 53127 Bonn.**
