Welcome Days at the University of Bonn
For winter semester 2022/23

The Welcome Days are an opportunity for new students and doctoral students from abroad to gather information on the most important issues, such as enrollment, registration with the local authorities, and opening a bank account. Getting to know fellow international and German students and doctoral students during recreational activities is another benefit of the Welcome Days.

All Zoom links will be published on the Welcome Days website as well as in the Welcome Days app. There you can also find more information for your stay in Bonn.
