Information on Services for Students with Disabilities and Chronic Diseases

Students with special needs should always first get in touch with their Erasmus departmental coordinator well in advance.

Advisor for Students with Disabilities and Chronic Diseases

If you are affected by long-term health impairment, disability or chronic disease the advisor for students with disabilities can give advice on all matters relating to studying with disabilities and preventing disadvantages, especially in relation to special conditions, needs and support in exams or solving personal problems. The advice is confidential and solution-oriented - in the sense of a self-determined and successful study with or perhaps in spite of health impairment.
